

BLOCK AXESS

VEHICLE MITIGATION SYSTEM

V3 SET-UP

A safe and secure way to protect your public event from hostile vehicles.

QUICK & SIMPLE

Remarkably fast assembly/disassembly process requires only one person. With a fast 14-minute setup, Block Axess can be deployed without the need for extensive manpower or time-consuming processes.

VERSATILE & CUSTOMIZABLE

Modular design allows for various sizes by simply adding components. The customizable laser-etched plates enable you to incorporate your city, event, or company's name to fit your needs.

HIGHLY SECURE

Constructed from thick, galvanized steel, Block Axess provides robust security. It's tamper proof assembly and disassembly requires specialized tools, ensuring that the security can't be compromised.

CERTIFICATIONS

V3 is certified against **ASTM F2656- M30/P3** to resist vehicles up to 7.5 tons at 30 MPH

V2 is certified against **ASTM F2656-FS30/P3** to resist vehicles up to 3.5 tons at 30 MPH
