

Airport Safety Equipment

Approved safety products for efficient airport operation

Low Profile Water Fillable Airport Barrier

The portable airport barricade is designed to remain maintenance free. Designed to hold up to

two flashing lights and two warning flags. Made with recyclable, UV resistant polyethylene plastic - 10"H x 10"W x 96"L.

Runway Closure Marker

The Runway Closure Marker is an effective and efficient method of warning pilots of closed runways and taxiways. A diesel engine powers 20 spotlights that form an illuminated "X" that can be seen as far as 25 miles. The trailer-mounted unit is easily towed behind a vehicle. (Option include covers and rear hitch for tandem towing).

Signal Light

- Ambient light sensing
- Turns on automatically in low light
- Standard 2" straight pipe thread
- 4 LED bulbs
- Flashing - 55 flashes per minute

Solar 360

LED barricade marking light bolts directly to virtually all barricades, traffic drums, cones, and more. (Optional yellow lens)
